SAMPLE: NOT A REAL DOCUMENT

SOLAR SHARE BLOCK A SPV (PTY) LTD · SAMPLE DOCUMENT

Installation Certificate

10 kWp solar PV and battery mini-grid, Block A

This sample certificate shows the kind of record an installer gives when a solar system is finished and tested. The installer, people and serial numbers are fictional.

Installation

Certificate number	INST-2026-0042-SAMPLE
Owner	Solar Share Block A SPV (Pty) Ltd, 2026/555014/07 (fictional)
Site	Erf 1201, Block A, Ubuntu Heights (a fictional township), Gauteng, South Africa
GPS (approximate, fictional)	-25.7000, 28.3000
Installer	Example Solar Installers (Pty) Ltd (fictional)
Installation completed	12 October 2026
Commissioned (first power)	14 October 2026

Equipment

Item	Specification	Qty	Serial numbers
PV modules	500 W monocrystalline, half-cell	20	PV-SAMPLE-001 to 020
Array size	20 × 500 W = 10.0 kWp		
Hybrid inverter	10 kW, 3-phase, grid-forming	1	INV-SAMPLE-7781
Battery	LiFePO4, 20 kWh usable	1	BAT-SAMPLE-3310
Mounting	Ground mount, 25° tilt, north-facing	1	
Distribution	Prepaid smart meters, one per customer	25	PM-SAMPLE-01 to 25
Production meter	ESP32 signing meter, meter id 1	1	MTR-SAMPLE-0001

Production meter (the data source for payouts)

Meter id	1
Signing address	0xaa69C29dA92fa7d0Ef717705Cd21Dd6e4D641ff3 (TEST key, Wokwi simulation)
What it signs	Energy produced (Wh), energy sold (Wh), power (W), tamper switch, sequence number, time (EIP-712)
Where readings go	MeterOracle smart contract on Base Sepolia, via the SolarShare relayer

Tests on completion (sample results)

Test	Result	Pass
Insulation resistance, DC strings	> 40 megohm	Yes
Open-circuit voltage, per string	Within 2% of design	Yes
Earth continuity	< 0.5 ohm	Yes
Inverter anti-islanding	Disconnects in < 2 s	Yes
Battery full charge / discharge cycle	19.6 kWh delivered	Yes

SAMPLE NOT A REAL DOCUMENT

SAMPLE: NOT A REAL DOCUMENT

Test	Result	Pass
Meter signature check	Readings verify onchain	Yes

Declaration

The installer declares that the system above was installed and tested in line with the applicable South African wiring and embedded-generation standards. (Sample wording only: this declaration was not made by anyone.)

Sipho Sample
Registered electrician (fictional)
Specimen signature line: not signed

Thabo Example
For the owner
Specimen signature line: not signed
