SOLAR SHARE BLOCK A SPV (PTY) LTD · SAMPLE DOCUMENT

Power Purchase Agreement

Block A community mini-grid: 20 homes and 5 spaza shops

This sample agreement shows how the mini-grid earns its income: neighbours buy the electricity it makes. All customers, stands and amounts are fictional.

Parties

Seller	Solar Share Block A SPV (Pty) Ltd, 2026/555014/07 (fictional)
Buyers	The 25 customers listed in Schedule A (20 households and 5 spaza shops)
Agreement number	PPA-BLOCKA-2026-SAMPLE
Start date	1 November 2026
Term	10 years, renewable

Key terms

- Tariff: USD 0.20 per kWh, the same for every customer, reviewed once a year. For the demo it is settled in test USDC (RevenueDistributor.tariffUsdcPerKwh = 0.20).
- Customers prepay for electricity through their prepaid meters. No contract is needed for a customer to stop buying.
- The seller may only pay income to shareholders for energy the production meter shows as sold (RevenueDistributor.depositCap).
- If the meter shows more than 15% of the energy produced as unpaid for (THEFT), or the meter is opened (TAMPER) or silent (OFFLINE), payouts pause until the cause is fixed.
- Planned outages are announced 48 hours ahead. Faults are attended to within 24 hours.
- Disputes go first to a community meeting, then to mediation.

Schedule A: customers

Code	Customer	Address (fictional)	Prepaid meter	Avg. daily use
H-01	Household	Stand 1201, Block A	PM-SAMPLE-01	1.4 kWh
H-02	Household	Stand 1202, Block A	PM-SAMPLE-02	1.6 kWh
H-03	Household	Stand 1203, Block A	PM-SAMPLE-03	1.8 kWh
H-04	Household	Stand 1204, Block A	PM-SAMPLE-04	1.2 kWh
H-05	Household	Stand 1205, Block A	PM-SAMPLE-05	1.4 kWh
H-06	Household	Stand 1206, Block A	PM-SAMPLE-06	1.6 kWh
H-07	Household	Stand 1207, Block A	PM-SAMPLE-07	1.8 kWh
H-08	Household	Stand 1208, Block A	PM-SAMPLE-08	1.2 kWh
H-09	Household	Stand 1209, Block A	PM-SAMPLE-09	1.4 kWh
H-10	Household	Stand 1210, Block A	PM-SAMPLE-10	1.6 kWh
H-11	Household	Stand 1211, Block A	PM-SAMPLE-11	1.8 kWh
H-12	Household	Stand 1212, Block A	PM-SAMPLE-12	1.2 kWh
H-13	Household	Stand 1213, Block A	PM-SAMPLE-13	1.4 kWh
H-14	Household	Stand 1214, Block A	PM-SAMPLE-14	1.6 kWh

SAMPLE NOT A REAL DOCUMENT

SAMPLE: NOT A REAL DOCUMENT

Code	Customer	Address (fictional)	Prepaid meter	Avg. daily use
H-15	Household	Stand 1215, Block A	PM-SAMPLE-15	1.8 kWh
H-16	Household	Stand 1216, Block A	PM-SAMPLE-16	1.2 kWh
H-17	Household	Stand 1217, Block A	PM-SAMPLE-17	1.4 kWh
H-18	Household	Stand 1218, Block A	PM-SAMPLE-18	1.6 kWh
H-19	Household	Stand 1219, Block A	PM-SAMPLE-19	1.8 kWh
H-20	Household	Stand 1220, Block A	PM-SAMPLE-20	1.2 kWh
S-01	Spaza shop: "Spaza Shop One"	Stand 1230, Block A	PM-SAMPLE-21	2.5 kWh
S-02	Spaza shop: "Spaza Shop Two"	Stand 1231, Block A	PM-SAMPLE-22	3.0 kWh
S-03	Spaza shop: "Spaza Shop Three"	Stand 1232, Block A	PM-SAMPLE-23	3.5 kWh
S-04	Spaza shop: "Spaza Shop Four"	Stand 1233, Block A	PM-SAMPLE-24	4.0 kWh
S-05	Spaza shop: "Spaza Shop Five"	Stand 1234, Block A	PM-SAMPLE-25	4.5 kWh

Expected total demand: about 48 kWh per day. A 10 kWp array in Gauteng makes about 45 to 50 kWh on an average day; the 20 kWh battery carries daytime surplus into the evening.
